"It's a fantasy RPG, but it has many elements of the modern gaming field that you can enjoy. It's an action game. The main character is a skilled, charismatic and elegant person. The game world is as diverse as a dragon's world. A random dungeon, and a character's power increases as the game progresses. You can enjoy the game as much as you like while you immerse yourself in the game's world. It's a masterpiece of excellence that will never let go of your heart." - Appunappu Winner of Appunappu Award "Finally, a remake of the legendary Final Fantasy 8! The conversion is done so well. An RPG that you can actually get into and enjoy! It's a real age-old, genre-defining RPG that's bound to please fans of this style of game. Going through the story of saving the world from the hands of Sin with the main character who is very attractive and charismatic is a source of excitement that is difficult to find in any game of this type. The action is in your hands as you seek out the villain responsible for all the misfortune of the world, and then aim to bring him to justice with a party of adventurers. In this game, you will be able to solve all sorts of problems within the world, and never fail in your quest." - Straight Wizard "Beautiful images and rich game play. Watch as the story unfolds for all to see! The game also has a very rich and appealing music." - Gamer's Today LEGENDARY FINAL FANTASY 8 "Zan has grown into a great hero in the time of his exile, and has also become a legendary adventurer. What lay in wait for him, however, will completely change his fate. Mists of time, demons, dragons, towns, and even the cosmos will fall before him. He is the only one who can save the world from chaos...will he be able to fulfill that destiny?" "With Zan as the hero, the story begins with the Zan's background. It was a time when the world was covered in darkness. Everyone was trembling at the hands of an overwhelming evil. It was a war between light and darkness that raged for thousands of years. It was only when a young boy emerged from a tower on a dark night that a power greater than both darkness

and light emerged. The evil was defeated, but the boy would soon find himself embroiled in another evil. He was excluded bff6bb2d33

NEW FEATURE • **BATTLES MODE** The battles in this mode are conducted between the heroes of the respective sides. Each hero stands alone, and the battle map consists of individual battles. Each battle occurs in a small battlefield that has numerous rooms and small sections for each player. This makes it very easy to get to a specific place on the battle map. In addition, you can change positions and place yourself as you like with very little effort. You can freely assign the current weapon, armor, and magic that each hero has to the respective buttons on the controller. You can also press the buttons at the correct time to change weapons or armor and use magic appropriately. This makes the battles much more enjoyable, as you can put your own strategy into practice in battles. • **THE HEROES ATTACK** You must respond to the enemy's moves by pressing the attack button on the controller as they enter the battle screen. Players who take hits from enemies will be defeated, and they will be directed to the next battle. In this way, the game will achieve a constant action. • **NEW GAME MODES** The action of the game is controlled by game modes. Players can join in the Eternal Battle Mode, to enjoy either competitive or cooperative gameplay. • **WELL ESTABLISHED MOVES** The set of basic moves is composed of various special attacks. The Demon Ring (ST, DT, LS) attack, 1-2 (SP) attack, 2-3 (ST) attack, and D-3 (ST) attack are featured as special attacks, among others. In addition, you can freely add two hit moves and three hit moves on the foundation of the above-mentioned basic moves. In the Eternal Battle Mode, you can freely check what weapons you have equipped on your hero and also switch weapons freely. • **WEAPONS** Weapons are used by assigning them to the controller's 9 buttons. Each weapon has a powerful unique attack. For example, a sword can be used to attack quickly by assigning it to the D-Pad, but it can be used with the 1-2 attack by assigning it to the P-Pad and the R-Pad. New weapons will also be added in the future, so please look forward to new weapons. • **WEAPONS ATTACK** The weapon attack can be changed freely according to the player's strategy. The player must also change the attack as the game progresses, so the approach and the way
