(GamesDL description and review) **Gameplay (The Elden Ring) Description:** The new fantasy action RPG from Square Enix. Rise, Tarnished, and be guided by grace to brandish the power of the Elden Ring and become an Elden Lord in the Lands Between. **Gameplay (The Elden Ring) XSEED Games Developer:** Square Enix **Publisher:** XSEED Games **Platform:** PlayStation 4 (Reviewed), PC (Reviewed) **Developer Review:** As I'm sure you've guessed by now, The Elden Ring is a new fantasy action RPG that follows the story of a young man named Alesso and a young woman named Portia as they awaken the power of the Elden Ring. The story itself starts with Alesso waking up in a dark, seemingly abandoned town after being knocked out by a fireball. The Elden Rings appear and all the town's inhabitants are gathered together and awoken by the Elden Rings, leaving Alesso to wonder what is going on. From there he begins to search for answers and clues as to what

**Q: PHP array\_merge and array\_values I have this: \$first = array('test' => 'hello'); \$second = array('test2' => 'world'); \$third = array\_merge(\$first, \$second); \$fourth = array\_values(\$third); var\_dump(\$first, \$second, \$third, \$fourth); And it's outputting: array(3) { ["test"]=> string(5) "hello" ["test2"]=> string(5) "world" ["test"]=> string(5) "hello" } array(3) { ["test"]=> string(5) "hello" ["test2"]=> string(5) "world" ["test"]=> string(5) "hello" } array(3) { ["test"]=> string(5) "hello" ["test"]=> string(5) "hello" ["test"]=> string(5) "hello" } array(3) { ["test"]=> string(5) "hello" ["test"]=> string(5) "hello" } Why do I have the double values in the \$third array? And what do array\_values and array\_merge do exactly? I understand array\_merge has to do with merging arrays. But what does array\_values**

---

do exactly? A: `array_merge` merges all elements of two arrays into a new array with their corresponding keys. `array_values` produces a new array without the keys from the original array. `array_merge(array('test' => 'hello'), array('test' => 'hello2'))`; // Outputs: `array('test' => 'hello') array_values(array('test' => 'hello', 'test2' => 'hello2'))`; // Outputs: `array('test2' => 'hello2')` A: These two functions when combined are called `array_walk`. `array_walk(array, $function_name, $arguments)`; What this function does is that it will walk the passed array, calling your function `$function_name` with each element in the array as it goes. What you have here is, in my opinion, an example of not writing idiomatic code. You should almost never use `array_merge`. You almost certainly
