A new era is dawning for cars, roads and motorsports - 3 years after the introduction of the 4WD DHL racing simulator, the Automobilista series turns to a new technological generation with Automobilista 2, with over 5x more than 1,000 km of new roads and a new hardware rendering technology to achieve incredible effects on our highly detailed cars and tracks. The Automobilista 2 main features: Fully detailed, high quality licensed cars - Level up and customize your rides to not only look good on the track, but also perform better. You'll have to choose your ideal performance, functionality and weight before setting out on the road, as your car will provide its performance depending on how you use it. Many of our licensed cars are built on brand-specific platforms, meaning you can swap them easily for more power, just like you would real-life cars. More than 8,000 km of new and improved roads - With the introduction of four wheel drive and a new high performance engine, Automobilista 2 delivers a whole new experience with its third DLC - the beautiful and dynamic roads of Monza and its historic layout. Not only have we taken care of a number of existing road options, but we've also designed brand-new ones! The added luxury cars are an excellent starting point for your car, allowing you to level up quickly by spending your hard-earned free time for a driving license. Whether you want to drive the luxurious 2-seater or are ready to move up to the monocoque 4+2, our goal is the same, to make you the best driver possible! State-of-the-art OpenGL rendering engine - The real-time full 3D RENDER technology in Automobilista 2 allows you to enjoy your driving experience like never before with incredible effects such as reflections, shadows, sun beams, hair, flags and much more. We've also ensured the cars, tracks and scenery have been modeled from the ground up to provide players with the most realistic and hi-fi racing simulation experience! Making complete use of our new technology, it will be the much more realistic and detailed 3D cars that will be coming to Automobilista 2! Fitness for the Game: As with all Toca's games, Automobilista 2 is Designed for the Nintendo Switch console. However, due to Toca Boca Games' 3rd-party publisher status, please note that there is no official keyboard support

The event's timetable is not well known. More news as it comes. SLITROOT – FUNDING SLITROOT will be a FUNDRAISING event for World Vision. CASH APPRAISALS We have had several requests by players to make available an option for players to submit the value of their

payout after they have received it. Players will be contacted via email and given details of how to submit a request. This procedure is For players with large winnings, i.e. more than a few hundred dollars, we will move these and wait until Monday to receive the full amount. It is however likely that we will cokroll these to deposit first, to ensure there is no delay in the transfer to World Vision. For players who have not deposited their winnings, we will send a cheque via post to their address or, if applicable, to an address that is associated with their SLITROOT software account. SLITROOT is a key player in the SLIR's system, with data being freely exchanged with the World Vision sites. The system keeps all the winnings, and allows us to make deposits etc on the orders of any player. SLITROOT has also improved the processing of payments in a number of ways, and is running tests to see if we can release any further updates to help improve the system. Players who believe they have experienced a glitch in the payout process, or believe they have not received their winnings may contact SLITROOT directly (info@slitroot.com) to have their details checked, or if they wish, other members at the barcamp who may know more than the barcamp organisers. If anyone starts to notice that they are not being credited with chips, they are encouraged to contact the organisers and/or the security

He can move around the

game's office, flying, speeding, or walking and moving differently depending on the game's mood. His actions can be seen on the bottom left corner of the screen. Play on your own or with friends in the party system. 20 musical tracks composed by Les Echoes. Cool stuff about Les Echoes: Les Echoes is a team of three composers, Krzysztof Włodarczyk, Mateusz Waligórski, and Aleksander Leśniewski. They met at the Polish Army National Corps School of Music (this is a good thing to mention!), working for 4 years together in the Polish Army Band until Włodarczyk, the leader, decided to become a composer when he and Leśniewski were too busy making music for video games. At the same time, Włodarczyk became interested in film music and Polish music, meeting Waligórski while making music for the film "Maszynowy" by Maciej Kawka. Les Echoes is very active in the Polish music scene, and are frequently invited to play and compose for events in Warsaw. They have released two albums, the first in 2012 and the second in 2013. You can check out their page on Facebook and MySpace. There is a stand-alone album by Les Echoes, where you can listen to tracks that are not included in
