The evil god Hades has abandoned his realm, but he has left one last act of cruelty in store for the mortal world. The goddess of love, Aphrodite, must find a way to replace his spirit to save all the mortal souls. She calls upon her best warriors, the Ember Knights, a group of invincible super heroes united for one purpose. Together they must accomplish their final mission, the death of Hades, and return the dead to paradise. This action RPG rogue-lite allows the player to choose from five unique characters, each with their own unique ability sets and weapons. Each must battle through a wide-open, 3D environment to fend off the onslaught of Hades's minions, monsters and bosses. Combat mechanics are simple to learn, but just as complex and challenging as you need them to be to properly annihilate your enemies. There are no rules to this game. Whenever you come across the next enemy or boss, you can choose to fight it or not, but if you choose the fight you're in for a one-of-a-kind battle. How much health your hero has determines how powerful your character will be, so you might be able to knock out a monster with a couple of hits, but you're still equipped with the most powerful weapon at your disposal. More powerful weapons add more damage to your attacks, so you're encouraged to try new combinations. About the developers: Ember Knights is a game developed by Alex M. During his youth, Alex played a lot of Metal Gear Solid 3, but after a decade, he has come to his senses. Alex has been dabbling with mobile development for the past few years. He has created a few games, but none of them have yet seen the light of day. However, that didn't stop him from making Ember Knights for fun. While he was developing the game, the idea of a rogue-lite came to him, and this is where the idea of Apollo's domain and its evil god, Hades, began. Once the idea was fleshed out, Alex decided to take a huge leap of faith and release this indie game onto the world. Alex has been working on Ember Knights since 2015 and is still playing as hard as he can to make sure all his fans will have fun and enjoy his masterpiece.
