This video will give you guys some idea of what the absolute hero of any portal fan is:) This construction guide is a brief overview of the materials used in this build! It is not meant to completely complete,

Set in a dystopian late Cold War era, Arms Race is a fast paced 3rd person strategy game featuring smart AI, political intrigue, and over 400 unique weapons and items to be created through research, development, or outright looting. Stand alone & local coop, online multiplayer, custom single player maps, & level editing! You're in for a treat! The game is developed for cooperative play, so you can be the hero and pursue your objectives solo, or you can work together to succeed. The gameplay is fast, tense, and
