The main objective of the game is to drive different buses in different cities on different routes. Using your mouse and keyboard, passengers indicate where they want to sit and you have to follow their directions. You can play on any of the 22 districts. You can use 5 different buses on your route. There are three different road conditions in the game. You can choose which road conditions you want to use. There are three different types of buses in the game. Each bus has a different number of passengers. You can have from 1 to 4 passengers. There are several types of stops for each type of bus. Each of the buses has its own logo and its own individual features. For each bus type there are several types of bus stops Bus stop All over the world, new residential neighborhoods sprout up like mushrooms after the rain, and high-rise buildings sprout up in old neighborhoods. But many residents find themselves without the amenities they're used to. Because of traffic jams, they cannot get to their apartments or leave, and sometimes even leave their homes. As a result, some residents who are not professionally involved in industrial activities are forced either to adapt to the new living conditions or move to other areas. Thus, many residents, especially
