Professional PC based equipment for heavy duty vehicles, commercial transport and cars. The
program allows you to receive information using a special transducer that reads error codes in the
car's electronic unit. Take advantage of this tool, and perform tests of various systems sentences.

The graphic shell of the program is designed for the login user. Extras information: Working
Bluetooth; ISS worker. The ISS function works for cars and trucks; The history function works;
Support for old CDP PRO devices (with serial number 30250); New maps and coding instructions
(update for fresh cars); Fixed errors of links with modules. At MrRover, it is a family owned company,
we've been in the Car Business since 1977 and have been catering for the British market since 1984.
We mainly sell wholesale, sell directly to the public through our outlets and help install the service
for your Cars, we are a call ahead service and have a large number of spare parts in stock. We will
always be able to help you out with the most up to date Car related information. Our Customer
service advisor is always happy to assist you and answer any queries you may have. We also offer
MOT kits
